student2PRO GUIDELINES

The purpose of this policy is to set forth the terms and conditions under which Nemetschke Vectorworks or the authorized Vectorworks Distributor will provide Vectorworks professional software and services through the student2PRO program. This policy defines eligibility requirements, as well as guidelines and restrictions that apply to both the software purchase and its accompanying services.

The software license is governed by the End User License Agreement (EULA) provided with the software. The EULA is available at vectorworks.net/company/legal.php and can also be found in the Release Notes directory of the software.

The following guidelines apply to software purchases made through the student2PRO program. Please note that the student2PRO program may not be available in all countries and local country restrictions may apply. Please check with Vectorworks, Inc. or the local authorized Vectorworks distributor for details.

1. You must be a graduate of a designed-based curriculum or program at a post-secondary school within the past 12 months to purchase professional software through the student2PRO program.
2. At time of order, you must provide official, school-supplied proof of graduation that contains your graduation date.
3. You are eligible to purchase one Vectorworks professional license through the student2PRO program.
4. All sales through the student2PRO program are final; licenses purchased through this program cannot be refunded or transferred to another owner.
5. Where Vectorworks Service Select is available, you may purchase it along with your software license. If purchased, you are required to sign the standard Vectorworks Service Select contract.
6. Professional software purchased through the student2PRO program can be upgraded to the latest software versions through standard upgrade processes.
7. You may request that we convert up to 10 of your student project files to the professional format. Your request must be made within 60 days of your signature below. Please see student2PRO.vectorworks.net for details.

By signing below, you (the customer) acknowledge that you have read and accepted the terms of this student2PRO policy.
